   9 mentions · +1 WoW · avg 1.67★ · 89% negative
2. **Customer Support** — priority 72/100
   6 mentions · 0 WoW · avg 1.67★ · 83% negative
3. **Charges & Fees** — priority 61/100
   4 mentions · 0 WoW · avg 2.00★ · 75% negative

In users' words

> “Instant withdrawal from the savings feature failed and the money has not come back to my wallet.”
> *1★ · Play Store · Withdrawals & Fund Holds*

> “Raised a ticket and got copy-paste responses. Nobody actually solved the problem.”
> *1★ · Play Store · Customer Support*

> “The charges structure seems to change often and I am never told in advance.”
> *1★ · App Store · Charges & Fees*

Three action ideas

1. Ship a live withdrawal/redemption tracker with honest ETAs and auto-alerts when a payout slips past the promised date.
2. Add a priority escalation path with callback for stuck-money tickets and retire copy-paste macros on fund-hold cases.
3. Show a full fee break-up on the confirm screen and post any fee change to an in-app changelog before it takes effect.
